

*Gain new perspectives by intuitively tapping into your creativity.*

## **Corporate Experimental Painting Workshops**

Painting collaboratively with in a group facilitates dynamic interaction and dialogue. This process inspires “out of the box thinking” and strengthens team spirit. The finished work of art is a symbol of your teams creative and expressive exploration. This three hour workshop takes place at either your office or at my studio in Winterthur or in Antwerp.

Price Sfr. 1200.- painting materials and canvass included. For groups of three to five persons Sfr. 200.- per persons.

*Experimental Workshop at Google Zürich*

### **Blindfolded, left handed and staccato painting**

#### **THE PROCESS**

##### **Phase 1 Blindfolded**

The tactic of beginning blindfolded releases the creator from competitive performance and aids us in our discovery of the flow of our brush stroke, what is referred to as your signature. This part of the workshop is accompanied by flowing instrumental music.

##### **Phase 2 left handed**

After removing our blindfolds we will then review the nature of the work completed and it's qualities. Next using our left hand only during the second phase we exercise our ambidexterity. This part of the workshop is accompanied by experimental music.

##### **Phase 3 right handed**

During the final phase we will paint using only our right hand during 2 minute intervals encouraging your spontaneous nature. This part of the workshop is accompanied by bombastic music.
